What you get

- Professionally made survey
- Cloud-based dashboard
- Demographic variables (E.g.: Gender, Martial Status, Age Group, etc.)
- Product/brand attributes
 - Under the self-managed option, the Client decides which product/brand attributes to use
 - With other packages CEO can help the Client decide which attributes to include by integrating Client's and Client's team experience and industry research
- Active assistance in publishing the survey to accelerate responses
- With "The Works" CEO integrates your POS and/or customer data with the survey to obtain the fullest possible segment insights

Working with CEO Analytics – Painless onboarding and workflow

Working with CEO is easy and painless.

- Meet to establish the demographic variables and product attributes CEO will include in the survey.
- CEO will prepare the web-based survey and send a link to Client to include in Client's website, and other customer touchpoints
- Meet once more when CEO presents the dashboard with the first wave of results and trains Client and Client team on how to use the dashboard and how to interpret results
- CEO does the rest
